"Whoso stoppeth his ears at
the cry of the Bazaar, he also shall
try himself, but shall not be
heard." Prov. XXI: 13.

President Harrison will have the
whole country with him on one point
—his opposition to an extra session of
congress. The regular nuisance is
quite enough.

Mr. Blaine's reciprocity scheme has
one merit. It is a frank admission
that our infant industries are now
fullgrown, able to go out in the world
and take care of themselves.

An effort is being made to prove
that Daniel Webster never took on a
"jag." It does not much matter
whether he did or not, he had a head
which was a ways fuller than his
stomach.

M. Reed's jaunty assurance never
came out stronger than in his
claim that democrats in his district
voted for him to express their ap-
proval of his way of "doing business
in the house."

A widow lady of this city informs
us that she is to be married shortly to
a gentleman who does not live in Mexi-
co and one she never saw. She says
he is an editor and the wedding is to be
consummated by telegraph or in some
other long distance manner.—Mexico
Ledger.

"A long distance manner" is the
best way to marry an editor in the
world and probably Bob White re-
commended the plan himself.

There is a certain publication that
comes here from Kansas City which is
openly condemned and secretly read
by many. Knowing this, certain mor-
alists advocate the publication's sup-
pression. It is, however, one thing
to disapprove of a publication and
another to suppress it. It would be
better if many books as well as news-
papers were suppressed—such books
and newspapers as pander to the vilest
taste and openly encourage if not
advocate foul and indecent methods of
life. But what will be gained?
There are always some people who
demand such reading and while they
exist there will always be such publi-
cations. No sooner would one be sup-
pressed or destroyed than another
would arise to take its place. Men
are neither made better or worse by
the suppression of vile reading. The
good or bad must come from within
and nothing can alter the fact that un-
der God's sun the only power that can
change man, is God himself. There
are laws that can control decency, but
the greater higher laws of God alone
can control the human heart and pre-
pare it for a hatred of all things im-
pure and all things immoral.

If you are troubled with a feverish or
offensive breath on rising in the morning
it is almost a sure sign that your stomach
is in a bad condition and you are very apt
to be bilious. To avoid this take
Bile Beans. There is no medicine so per-
fect or so highly recommended as this
great system renovator. Take them ac-
cording to directions and you are sure to
be delighted with the result.

J. West Goodwin.

This gentleman is now the president
of the Missouri Press association; he is
also the editor of the Sedalia Bazaar,
which flies a quotation from Job. Mr.
Goodwin is also a good Episcopalian;
he is also a citizen of the place which
aspires to be the capital city. Envi-
ronments are to be taken into consid-
eration in the estimation of a man, both
as they are the result of his person-
ality and the results of other work, as
they affect him. The Bazaar is a con-
siderable element of Sedalia's progress
and is but the multiplied utterances of
Goodwin; we hope as president, as
editor, as churchman, as Sedalian he
may seek for and win good, which ex-
pression being a reversal of his name
we hope will not reverse his plans.—
Cooper County Democrat.

THE RAILROADS.

BROTHERHOOD OF L. F.

At the session of the Brotherhood
of Locomotive Fireman held at San
Francisco, among the recommenda-
tions made by Grand Master Sa-
gent was one that the brotherhood erect
in some central city a building for
officers of the grand lodge, to cost not
less than \$150,000, the money to be
raised by general assessments; also
that steps be taken to prohibit the
employment of Picketon's or other
armed to ces in time of strikes. The
report of the grand secretary and
treasurer shows a membership of 19,
000 and \$63,000 in the insurance
fund. The report also states that the
brotherhood raised by assessments \$459,
000 to support the great "Q" strike be-
tween February, 1888 and January,
1889.

A FALSE REPORT.

Engineer Welch not Insane, as
Stated in a St. Louis
Newspaper.

The following special dispatch ap-
peared in the Globe-Democrat of yester-
day:

Lexington, Mo., September 12.—
Engineer Welch's mind has become
unbalanced on account of the railroad
accident which occurred through his
carelessness at this place last Satur-
day, whereby two persons lost their
lives. He will be sent to the asylum
if he lives through the physical weak-
ness from which he is also suffering.

A BAZOO representative called on
Mr. Welch at his home, No. 1015
East Broadway, yesterday afternoon
and found him resting as easily as
could be expected. When ques-
tioned regarding the above Mrs.
Welch stated that the telegram was
without any foundation whatever
and that someone must be laboring
under a grave misapprehension, as
such a thing had never been dreamed
of by anyone. Mr. Welch is daily
gaining strength and outside of a
little soreness in his side and a lame
back he is all right and ere long will
be around as usual. Mr. Welch has
company nearly all the time and is
worth a whole army of dead men or
men who are candidates for the luna-
tic asylum.

EXCURSION RATES

TO

EASTERN RESORTS.

The attention of the traveling pub-
lic is called to the advantages of the
Ohio and Mississippi railway as a
route to New York, Philadelphia,
Washington, D. C., Baltimore, Cin-
cinnati and Louisville, as well as the
numerous health and pleasure resorts
of the east.

Both morning and evening lines of
Pullman Vestibule Buffet Sleepers are
run from St. Louis to New York via
the above named cities over the Bal-
timore and Ohio route. Deer Park
and Oakland the twin mountain re-
sorts of the Alleghenies, are on the
direct route of these through sleepers
to the east.

For Lake Chautauqua and Niagara
Fall our train connects in Cincinnati
with trains of the Erie Route which
run through to New York via Lake
wood on the southern border of Lake
Chautauqua; being the only line
from the west running a sleeper or a
coach of any kind to any point on
Lake Chautauqua.

For White Sulphur and other heal-
ing Springs of the Virginias; Rich-
mond, Old Point Comfort, Washing-
ton, Baltimore, Philadelphia and New
York, our trains make direct con-
nection in Union Depot, Cincinnati with
the "F. F. V. Limited" of the Ches-
apeake and Ohio Route.

Summer Excursion tickets to all
the eastern resorts are now on sale in

eastern points are lower than by any
other through car route from St.
Louis, while our accommodations are
unsurpassed.

furnish descriptive pamphlets of the
different resorts, reserve sleeping car
births and furnish any additional
information as to rates, time and routes.

A Method of Treating Disease.

Hospital Remedies.

What are they? There is a new depart-
ure in the treatment of disease. It consists
in the collection of the specifics used by
noted specialists of Europe and America,
and bringing them within the reach of all.
For instance the treatment pursued by spe-
cial physicians who treat indigestion,
stomach and liver troubles only, was ob-
tained and prepared. The treatment of
other physicians, celebrated for curing
catarrh was procured, and so on till these
incomparable cures now include disease of
the lungs, kidneys, female weakness, rheu-
matism and nervous debility.

This new method of "one remedy for one
disease" must appeal to the common sense
of all sufferers, many of whom have ex-
perienced the ill effects, and thoroughly real-
ized the absurdity of the claims of Patent
Medicines which are guaranteed to cure
every ill out of a single bottle, and the use
of which as statistics prove, has ruined
more stomachs than alcohol. A circular de-
scribing these new remedies is sent free on
receipt of stamp to post office by Hospital
Remedy Company, Toronto, Canada, sole
proprietors.

Catarrh,
Catarrhal Deafness—Hay Fever. A
New Home Treatment.

Sufferers are not generally aware that
these diseases are contagious, or that they
are due to the presence of living parasites
in the lining membrane of the nose and
eustachian tubes. Microscopic research,
however, has proved this to be a
fact, and the result of this discovery is that
a simple remedy has been formulated
whereby catarrh, catarrhal deafness and
hay fever are permanently cured in from
